

GCSE Subject: EDUQAS GCSE ELECTRONICS

What revision is expected and where can revision resources be located:

The best form of revision for GCSE electronics is by practising past exam questions. We will work through all recent exam papers (and selected older questions) during our classroom-based revision lessons. These resources can be taken home for further revision and practice. You can also go through the worked examples in the EDUQAS eBooks and repeat the eBook exercises.

Resources will be uploaded to the Class Materials > Revision folder in Microsoft Teams.

Exam dates:

Thursday 7 May 2026 – component 1

Friday 15 May 2025 – component 2

Help sessions available:

Stuck on a problem? Come to coursework club at lunchtime. Help with coursework and revision is available every weekday lunchtime with Mr Pizzey in T1.

Recommended revision guides:

EDUQAS eBooks –
